 Telephone, South, 438.

DOCTORS AND NURSES!

ATTENTION IS CALLED TO THE  
FACT THAT

Anheuser-Busch  
Brewing Association  
OF ST. LOUIS.

Make it a point to brew exclusively PURE and FINE

MALT BEER.

For Patients, the EXQUISITE (or White Label) and BUDWEISER are far preferable to ordinary brewings of corn preparations.

The small alcoholic and large nutritious percentage of the ANHEUSER-BUSCH BOTTLE BEER make it a superior preparation, as the quality is guaranteed by the standing of the firm, whose motto is "BOTTLED FOR THE PEOPLE." ANHEUSER-BUSCH BOTTLE BEER is always pure and standard, which is generally disdained of wine, liquor and medical preparations.

CHICAGO BRANCH  
F. SONTAG, Manager.

# TWENTY-NINTH

## ANNUAL REPORT OF THE TRUSTEES.

—FROM—

October 1, 1891, to October 1, 1892.

The time has again come round when, by the Constitution, the Trustees of St. Luke's Hospital must lay before the corporators and the public, the annual statement of the condition of the Hospital in all its departments. The Medical Board, the Chaplain, the Treasurer and the Superintendent of the Hospital will each in turn present the record of their work. It is our part to review in general the whole situation of this great trust. Our deficit is really no less, but we are thankful that we now see our way clear to a much larger income. The large apartment building named the "Clinton," after our President, has been well rented, and there is every prospect that soon there will not be a vacant corner in it. We expect to have, next year, that this will add \$12,000 net, to our annual income. Nearly the whole of our endowment has been invested in this building.

During the year the Charles Peck bequest of \$25,000 has been paid over, and we have received bequests also of \$5,000 from C. P. Frier, Chicago, and \$6,000 from Mr. J. K. Fisher's estate. Mrs. Mary Peck has endowed, at a cost of \$2,000, a bed in memory of his lamented daughter, Miss David Knox, and we have received notice from the executors of Mr. J. T. Goodwin, New York, of a \$5,000 bequest, which we hope soon to receive. The Palmer bequest of \$10,000, and the Mrs. John L. Peck bequest of \$4,000 are now soon to be settled. All this is most encouraging, and shows us that our work is appreciated.

The support of new beds has been undertaken by Fraser & Chalmers, Mrs. J. M. W. Jones, in memory of her son; Mr. Norman Fay, in memory of his father; Mr. Alfred C. Hudson, a stranger to us, except from personal experience of the comfort of the Hospital, donated the Superintendent of Nurses \$500 to support a bed in a room, and \$100 for whatever new she might see fit to make of it. This gentleman contemplated the endowment of a bed and room. To show what can be done by individual interest, the Trustees gratefully stated that a rich and unflinching friend of the Hospital, Mrs. N. K. Fairbank, collected and donated in this year \$1,800, for the support of six beds. They commended her noble example to all others. Even the collecting of \$500 for one bed would be a grand work for the Hospital. Who here this year contribute? The Trustees would also thank Mrs. Elizabeth Siskin for continuing this year her contribution of \$600 for the support of the Hospital kitchen. They also owe a debt of gratitude to Mrs. Clinton Locke and those whom she has been able to influence for an ample supply of linen and blankets (deal has been expended this year for cleaning and for repairs, but the Hospital is in the best beautiful order, and challenges the admiration of all who see it. Every part of it is now open, and every bed at the disposal of the sick. This is a great venture of faith with our present income, but we believe that we will be able to continue it; we are constantly gaining friends.

We have this year cared for 1,044 patients, 501 pay and 543 free, as against 514 pay and 618 free last year. Often "pay" means only a small sum, not half enough to cover the expense of the patient.

The Trustees recognize with gratitude their debt to the Medical Board, laudably and ungrudgingly in our words. The very best medical and surgical skill in this city is ever at the service of the poorest persons in it. The Medical Board gratefully thank all those kind friends who have aided them in any way. An accurate account of the gifts will be found in this printed report. The Trustees have increased the number of their board to twenty-one, sixteen to be chosen from the retired and middle-aged physicians of the city, and five from the general community.

Recognizing the wisdom and necessity of the Hospital, the Trustees have spent the last year in a long and arduous struggle to secure the necessary funds to build the Hospital. The Trustees begin the work of another year.

From October 1, 1891, to October 1, 1892

*To the Rev. Dr. Clinton Locke, President and Chaplain of St. Luke's Hospital.*

DEAR SIR: The Rev. C. N. Moller, having resigned the office of Resident Chaplain, on the 27th of February of the present year, I entered on the duties thereof on the same day.

During the past year there have been:

Baptisms (Infant)	.....	3
" (Adult)	.....	3
Churchings	.....	7
Journals	.....	7
Sermons	.....	7
Services	.....	Daily
Bearing Office for Day Nurses and Patients	.....	7:15 A. M.
" " " " " " " " " " " "	.....	8:45 A. M.
Eveiling Prayers in Six Ward	.....	8 A. M.
Thursday, Holy Eucharist	.....	8:45 A. M.
Friday, Idley	.....	9:55 A. M.
On Festival Days, Holy Eucharist	.....	8:45 A. M.
On Sundays—Holy Eucharist	.....	8:45 A. M.
" " " " " " " " " " " "	.....	8:45 P. M.
Evening Prayer	.....	4:00 P. M.
" " " " " " " " " " " "	.....	4:00 P. M.

Those patients who are communicants receive the Holy Eucharist in the chapel, as they may be able. When not able to attend, it is taken to them in the different wards at the time of the celebration in the chapel, as may be required.

Prayer cards are used throughout the Hospital, so that the patients may join in the evening prayers in the wards.

Each patient is visited by the Chaplain, as may seem to be required.

Ministers of the different religious bodies (having reported themselves to the Chaplain, or the Superintendent), visit the patients belonging to their respective communions.

The remark made last year that many of the books sent to the Hospital are of no value to the beneficiaries, is again repeated. Many thanks, however, for the kind friends who send the periodicals and other interesting and useful books.

The Nurses of the Training School, with praiseworthy zeal, take the greatest care of the Chapel, render music at the Chapel services, and decorate the altar very nicely every week.

From the exertions of the late Chaplain and the Superintendent, the Chapel has been painted. During that time the services were continued in one of the wards.

As Christmas offerings, a protector for the altar, a white dossal, a lace superfrontal and a fair linen cloth " were given by five of the Nurses.

Vesper Lights were added on the 22d of August, in memory of the first Nurse of the Blue Cross, who has entered into rest. It is purposed to observe this day annually, in commemoration

of those who may be enrolled in the necrology of this association, so that the memory of these Nurses should not pass into oblivion.

The wine for the Holy Eucharist has been supplied by Mrs. N. K. Fairbank.

The visits of the Sister Illia, S. Con. S. M. to the Hospital has been very acceptable, and productive of much good.

I am, very faithfully yours,

WILLIAM GRANT.

# REPORTS OF THE MEDICAL BOARD.

CHICAGO, October 15, 1922.

To the President of the Board of Trustees, St. Luke's Hospital.

DEAR SIR: We are here to review the work done in the Hospital during the past year—the number of patients, the character of the cases and the manner in which they have been cared for. We are interested in the character of the cases brought to us, for they are an index of the esteem in which the Hospital's services are held by the public.

Of these services, those rendered by the Medical department are only a portion, and it is my duty to report only upon the work done by the Medical staff. I would like to say, however, that the services rendered the patients by each of the departments of the Hospital are so closely interwoven that to have one efficient, all must be efficient—all should endeavor to co-operate for the good of the patients assigned to them in common, each department fulfilling some of the requirements for the safety and comfort of the sick.

It has been the aim of the Medical department to so adjust the working departments that they will all work in harmony, and to find an appreciation of the results reached in the number and character of the cases that have come here for help.

To the Medical department is delegated the special duty of directing the care that shall be rendered each patient, and upon the wisdom of the physician's judgment often depends the selection and enforcement of measures so desperate that their unnecessary enforcement, or a technical error in their performance, may sacrifice the patient's life.

It is the practice in these extreme instances to secure for the patient the judgment of several members of the Medical staff, in order to give the patient the benefit of a well considered course.

The annual reports from the different branches of the Medical and Surgical services show an aggregate of 1,164 patients treated during the past year, and a record of complete recovery in 571 cases, an improvement in 240 cases; the condition unchanged, or incurable in 111 cases, and 13 cases not cured at all. Of these 1,164 patients, 444 were males and 720 were females. Recovery occurred in 272; improvement in 48; the patient's condition remained unchanged in 19 cases; 73 died, and 29 are still inmates of the Hospital.

The full report is too lengthy to read. As examples, it mentions that among those treated were 19 cases of isolation—all recovered. Three cases of opium and morphine poisoning, with 1 death. Ten cases organic heart disease, of which 2 apparently recovered, 7 died, and 1 remained unchanged. Eighteen cases of pneumonia—9 recovered, 7 imperfect recovery, 7 deaths, 1 still under treatment. Fourteen cases of pulmonary tuberculosis—1 improved so decidedly as to be considered a recovery, 3 were better, 1 unchanged when discharged, and 1 died. There were 103 cases of typhoid fever—110 recovered, 1 imperfect recovery, 1 left the Hospital, 25 deaths, or a mortality of fifteen per cent.; 26 now under treatment. Two cases of typhoid pneumonia—both recovered.

Of the 1,164 patients, 900 patients were treated, with a mortality of 9.6 per cent. Of the 1,164 treated operations: of this number the mortality was 9.5 per cent. Of the operations, some were trivial in character, but at least 30 were of grave nature, being operations within the abdominal cavity, and exposing the patients to especial danger, attending interference with its delicate lining.

Of the ophthalmological service, 26 cases were treated—10 recovered, 11 were improved; 1 severe case of inflammation of the eye died from extension of the inflammation to the blood channels within the skull.

In the otological department 5 cases were treated—4 recovered, 1 was improved. Five hundred and seventy-three surgical cases were treated. Of these 451 were males, 122 females; 273 recovered, 147 improved, 40 were not improved, 62 died, 48 still under treatment.

CHICAGO

Of the surgical cases, 257 required operations. Of these, 174 male, 45 female, 145 recovered, 54 improved, 94 died, 18 still under Hospital care. The operations performed include some that were exceedingly dangerous, viz: The opening of the abdominal cavity for various reasons. Among others, one for the removal of nine inches of intestines—recovered in three weeks. Two cases of appendicitis, both of which recovered. Trephining for fracture of the skull, to relieve the compression of the brain by depressed fragments, or effused blood. In one case trephining was performed to excise a special motor center of the brain.

Under surgical cases not requiring operations are fractures, injuries requiring surgical appliances or dressings; all diseases requiring surgical dressing or mechanical appliances for their cure or alleviation.

Many accident cases are admitted to the Hospital in a nearly moribund condition, and die either before or soon after operation.

In the Dispensary connected with the Hospital, the following cases were treated:

Surgical.....	1,587
Medical.....	1,747
Physiological.....	3,100
Ophthalmological and otological.....	1,465
Total.....	4,900

#### Summary:

Patients treated in the Hospital.....	1,584
Dispensary.....	4,500
Total number treated.....	5,084
“ “ “ last year.....	4,887

Respectfully,

FRANK S. JOHNSON, M. D.

# GENERAL RESUMÉ.

CHICAGO, ILL., October 15, 1892.

To Rev. Clinton Lusk, D. D., President of the Board of Trustees, St. Luke's Hospital.

DEAR SIR: The following statement shows the work of the Medical Board, for the year ending October 1, 1892:

The number of patients remaining, October 1, 1891	58
admitted during year	1,414
Total	1,472
Total number discharged	
Cured	571
Improved	236
Unchanged	111
Dead	111
Total number discharged	1,029
Remaining, October 1, 1892	443

## DISPENSARY

The following were the number of cases treated in the Dispensary, free of charge to applicant:

Surgical	1,252
Gynecological	1,107
Gracacological	1,119
Eye and Ear	985
Total	4,463

## RESUME

Patients treated in the Hospital	1,259
Dispensary	4,463
Total Number of patients treated	5,722
" " treated last year	4,857

There is a lady in attendance

The entire Hospital was ordered opened for patients in Section 1, with a capacity of 152 beds. The average duration of each patient was 25 days, last year 26. The average cost of patient in hospital was \$4.50, last year \$4.75, a saving of 22 cents per diem. Cost for inmates, \$5.75 cents.

In this average is included all permanent improvements made during the year. The cost per diem of each patient for subsistence has been 47 cents; last year 50 cents. The admissions from our church were last year 125, while of the Roman church we received 172; 12 other religious denominations sent us 531, while 375 were admitted without any religious creed.

Nine hundred and twenty-one admissions were American; last year 20 nations sent us 681 patients, 27% were without means of support, without a trade or vocation, and 1.2% were in 92 trades, professions or positions in life.

Admission has been reduced, either for want of room or because of the incurable or chronic nature of the disease, to about 400 applicants. Our Physicians often admit temporary relief, and our emergency work has largely increased, nearly all the accidents of the South side, north of our location, are brought to this Hospital by the City Police Service.

Prompt and effective service has been rendered by our House Physicians, who should be commended for their efficiency. Most of this emergency work is charity work. We have afforded facilities for 14 corner's inquests. The death rate should be reduced by 80 emergency cases received in a dying condition.

Last year the total number of Dispensary cases was 3,715; this year 4,400, an increase of 884. The division of the work was as follows:

Surgical	1,357
Medical	1,107
Obstetrical	1,000
Eye and Ear	100
Total	4,400

This shows a daily average of about 14. This could be largely increased if it were possible to furnish the prescriptions free of charge. Many of the best Hospitals have a uniform charge for the Dispensary prescriptions of 10 cents each.

Our druggist presents his usual report of that department, showing increased work and efficiency. The laundry is in good condition, well and efficiently managed, with a monthly output of about 35,000 pieces. Greater economy is shown in the use of ward linen, but the generally clean appearance will commend itself.

Our machinery, boilers and steam plant are economically and faithfully managed. I am glad to report, that through the donations made to the Burial Fund Box at the hall entrance, I have been able to bury in Oakwood Cemetery, four babies, and one adult. Many poor, destitute people die annually with us, whose remains, I am sure to report, never receive Christian burial. We have arranged to have the charges paid to the funeral home, and to have the dead in cooled ground. We have calls constantly for an additional lot of similar institutions of this city have, this ready means to respond for help. An inspection of the Hospital will commend itself favorably to you. Many beautiful rooms have been furnished and refurnished, and many improvements have been made for the good of the Hospital.

It would cost the Hospital a large sum of money were we compelled to pay for all of the supplies the St. Luke's Aid Societies have sent us.

Herewith find statistical exhibits, and comparative statements of maintenance accounts, etc. I wish to acknowledge the most cordial co-operation of the Resident Staff, the House Staff and the employees during the past year.

Faithfully yours,

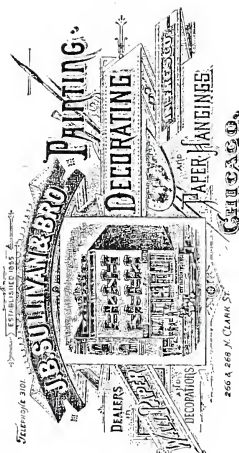

GEORGE B. DRESLER,  
Supt. in-charge.

# **RULES FOR THE ADMISSION OF PUPILS TO THE ST. LUKE'S FREE HOSPITAL TRAINING SCHOOL FOR NURSES.**

*Revised by Training School Board, November, 1895.*

Arrangements have been made for giving a course of instruction to women desirous of becoming nurses. Those wishing to receive such a course of instruction should enter a period of at least two years, must apply to the Superintendent of the Training School, upon whose approval and recommendation they will be admitted to the school. The course of instruction will be continued for three years, and the school will be open for the reception of new pupils at any time during the year when there is a vacancy.

The applicant must send, with answers to questions on blank form, a letter from a clergyman testifying to her moral character, and from a physician stating that she is in sound health. During the term of probation the applicant must be prepared for an examination in reading, simple arithmetic and English diction—in order to test her ability to read about well—to keep simple accounts, to write legibly reports of her patients, and to take notes of lectures. Women of superior education and cultivation, when equally qualified as nurses, will be preferred to those who do not possess these advantages.

Pupils shall serve three months on probation. During the first month pupils receive food, bedding and laundry work at the expense of the Hospital, and may be dismissed at any time if the probation is unsatisfactory, or they may leave the school if desired. At the end of the first month probation is satisfactory, the pupil may wear a uniform, and be allowed to leave the hospital at any time. At the end of the second month the pupil may be allowed to leave the hospital at any time, and to receive a certificate of graduation. At the end of the third month the pupil may be allowed to leave the hospital at any time, and to receive a certificate of graduation. The rules and discipline of the same for at least two years from the date of their enrollment as junior nurses.

The right is reserved to terminate the connection of any nurse with the school for any reason which may be deemed sufficient.

The in-door uniform consists of a blue and white sersucker dress, white apron, cap, collar and cuffs. This the nurses are required to wear when on duty after the first month of probation.

The out-door uniform—a gray cloak and bonnet—must be worn whenever a nurse is sent out to a patient, or whenever a nurse goes out, wearing her sersucker dress.

To defray the expense of the above uniform, and to provide for the purchase of text books, an allowance of \$3 per month is made for the first year, and of \$12 per month for the second year.

A vacation of two weeks is allowed in each year.

In illness, all pupils are cared for gratuitously, but time so lost must be made up at the end of the term.

The day nurses are on duty from 7:45 A. M. to 7:45 P. M. Time is allowed for dinner, and also for additional rest and exercise, when it does not interfere with the hospital duties. Night nurses are on duty from 7:45 P. M. to 7:45 A. M., and for one month at a time. Nurses are obliged to attend morning prayer, which is said daily in the Chapel.

# COURSE OF INSTRUCTION.

- 1.—GENERAL NURSING.
  - a.—Care of wards and private rooms with the principles of ventilating and warming the same.
  - b.—Bed-making; changing bed and body linen while patient is in bed; baths; management of helpless patients; prevention and treatment of bed-sores.
  - c.—Application and dressing of blisters; cathartics; irrigation and application of fomentations; poultices; and administration of enemata, and the use of the catheter.
  - d.—Observation and recording of temperature, pulse, respiration, secretions and excretions.
- 2.—MEDICAL NURSING.
  - a.—Administration of medicines, stimulants and nutriments.
  - b.—Massage.
  - c.—Disinfection and prevention of disease.
- 3.—SURGICAL AND GYNAECOLOGICAL NURSING.
  - a.—Care of patients before, during and after operation.
  - b.—Care of burns, wounds and ulcers; prevention and control of hemorrhage; artificial respiration.
  - c.—Bandage making and bandaging; padding splints; preparation of aseptic and antiseptic dressing; care, names and uses of instruments.
- 4.—OBSTETRICAL NURSING.
  - a.—DIELECTICS.

Although lectures and classes are held every week by members of the Medical Staff, the Superintendent and her Assistants, the instructions will be chiefly clinical. Examinations will be held at stated intervals.

Nurses will reside in the Hospital free of expense. They are expected to perform any duty assigned to them by the Superintendent of the Training School, either to act as nurses in the Hospital, or in due time, to be sent to private cases among the rich or poor.

When the full term of two years is ended, after final examinations each nurse will receive (if merited) a badge and a diploma, signed by the President and Secretary of the Hospital, the Examining Board and the Superintendent of the Training School. Nurses are then at liberty to choose their own field of labor, whether in Hospitals, in private families or in district nursing.

## RULES FOR PUPIL NURSES.

**RULE 1.**—The hour for rising is 6:30 A. M. Before leaving the Home for the Hospital, each Nurse must make her bed, diet and arrange her room and closet, leaving them in good order, so that they may be ready for inspection by visitors at any time during the day.

The hour for closing the Home is 10 P. M. All Pupil Nurses are expected to be within doors at that hour, unless they have special permission to be absent. The lights will be put out in the study and halls, and Nurses must retire to their rooms. The day Nurses are on duty from 8 A. M. to 5 P. M., and are often given two hours off for rest and recreation. Night Nurses must be in their rooms from 10 A. M. to 5 P. M., and will not be permitted to go out during the day without permission from the Superintendent.

**RULE 2.**—Nurses must be prompt to leave their room.

When given an order to leave their room and flag in the dining room or corridors after meals, no food is provided for the Nurses out of the printed time, except when ordered by the Housekeeper at the request of the Superintendent. Nurses are not to go to the kitchen, or give orders to the cook, all such matters are to be referred to the Housekeeper. No visitors are to be invited to meals, or to spend the night in the Home.

**RULE 3.**—Each Nurse must be provided with a clothes bag distinctly marked, in which the clothes are to be sent to the laundry. Each Nurse will be provided with a double list book, two accurate lists must be made out with name of Nurse and date, one to be sent to the laundry and the other to be retained by the Nurse. Two dozen pieces plainly marked and one dress are allowed each Nurse per week. An extra dress will be washed when necessary by obtaining an order for the same signed by the Superintendent of the Training School. No faces, muslins or white skirts will be received. The allowance for Nurses wearing "Gaiters" Collars and Cuffs, is twenty pieces and seven collars and seven pairs of cuffs.

**RULE 4.**—The Nurses are under the authority of the Superintendent. When taken off duty on account of sickness, they may not return to their Hospital duties without the direction of the Superintendent. When time goes for holidays or private rooms without permission, except at the regular hours. Nurses are not permitted to receive calls in the wards of the Hospital from their friends or other Nurses.

**RULE 5.**—Nurses will report to the Superintendent when they need the services of a physician, and must not obtain medicine from the drug store or wards without an order from the physician or Superintendent.

**RULE 6.**—Nurses must not be absent from class or lectures without permission.

## REGISTRY FOR NURSES.

The Auxiliary and Training School Board have established a registry for their graduates, where medical, surgical and obstetrical Nurses can be obtained by applying either in person, by letter, telephone or telegram, to the office of the Superintendent of the School, St. Luke's Hospital, 1450 Indiana Avenue. Telephone, South, 428.

The terms for the registered Nurses are \$20 per week, or \$5 per day; for emergency cases, \$25 per week, unless special arrangements are made with the Superintendent for more or less pay.

When seeking a Nurse, in case of her absence, leave all messages accurately written, to insure prompt attention. Never trust merely to the memory of the person answering your call. The price for services of the Nurse and in connection therewith, should be stated when the engagement is made. The fee should be paid by the patient, and the Nurse's washing be done.

A Nurse should have sufficient sleep if possible, a continuous one, an hour for exercise in the fresh air every day, and facilities for bathing at suitable intervals.

A lunch or an early meal should be provided for the Nurse, if required to sit up at night.

If any registered Nurse in charge of a case has proved unsatisfactory, the employer is requested to report the fact to the Superintendent.

*Superintendent of Training School.*

## RULES OF THE DIRECTORY FOR NURSES.

**RULE 1.**—The terms for the registered Nurses are \$20 per week, or \$5 per day; for contagious diseases, \$25 per week, unless special arrangements are made with the Superintendent for more or less pay.

**RULE 2.**—Nurses are to keep the Superintendent informed of their place of residence, when they are ready for a call, and when they have accepted a case, obtained from the office or from any other source. When once an engagement has been made it must not be broken save by mutual consent.

**RULE 3.**—Nurses, while in attendance in the sick room are to wear a cap, apron and dress of washing material, unless the circumstances of the case render such a dress inappropriate.

**RULE 4.**—It is the duty of the Nurse to take care of a patient's room if her time is not fully occupied with her patient; to obey implicitly the orders of the physician in attendance without note or comment. They are also most earnestly charged to hold sacred the knowledge which to a certain extent they must obtain of the private affairs of the households in which they are engaged.

**RULE 5.**—An engagement tendered through the Directory must be accepted, if the case be such as the Nurse has not specified her objections to take when signing the agreement.

**RULE 6.**—When two Nurses are employed to care for a patient, they must relieve each other for meals and sleep, and not call upon the family unless the needs of the case demand it.

The fee is \$5 per annum, (the January 1st). This will not be refunded if a Nurse wishes to withdraw during the year.

The Board reserves the right to remove the name of any nurse from the register for what may seem to them sufficient cause.

and St. Paul Railway

THE MAP TELLS ITS OWN STORY.

Just as soon be well as all that is a work of the Chicago, Milwaukee & St. Paul Railway, which is the only one in the world which is so perfectly equipped as to run every day between Chicago and St. Paul, Milwaukee and Minneapolis, with a through sleeping car in between, for both and also between Chicago, St. Paul and Minneapolis. In each sleeping car berth there is an electric light, and the car is so equipped that it is as comfortable as a home. It is hardly necessary to say that the car is so equipped that it is as comfortable as a home, but we make the assertion without fear of contradiction. The Chicago office is in Chicago at 100 North Dearborn Street, where sleeping car berths can be secured two weeks in advance.

The Chicago, Milwaukee & St. Paul Railway, with its 6,100 miles of thoroughly equipped road reaches all principal points in Northern Illinois, Wisconsin, Iowa, Minnesota, N. Dakota, S. Dakota and Northern Michigan.

The only line running Electric Lighted and Steam Heated Vestibuled Trains. All Coupon Ticket Agents in the United States and Canada sell tickets via the Chicago, Milwaukee & St. Paul Railway.
